Lane Transit District is proud to play a role in the Eugene 08 U.S. Olympic Team Track & Field Summer Trials. LTD is the public transit service serving the greater Eugene-Springfield metropolitan area and an organization that takes pride in innovation and a high level of service. That's exactly why LTD is stepping up to the plate with transit services for the tens of thousands of spectators, athletes, media professionals and residents of Lane County that will be attending this momentous event.

The thousands of people converging on the Eugene-Springfield area will need a transportation solution that fits the rapid pace of Olympic trials. LTD is poised to offer world-class public transportation to and from Eugene 08 events at Hayward Field on the University of Oregon campus. We will be offering shuttle services from various locations to the event, as well as additional bus routes and enhanced EmX service.

Despite humble beginnings, LTD has transformed itself from a small co-operative of Volkswagen Microbus drivers in the 1960s to the internationally-recognized and award-winning service that it is today. Similarly, signaling Eugene's blossoming into a major city is the Eugene 08 Olympic Trials. LTD is excited to play a role in representing our community that is so proud to host Eugene 08 by being ready with an Olympic-worthy transit service. We look forward to the action, excitement and passion involved with everything that is the Olympics.
